## OBJECTIVES

---

Seeking an entry-level position to start my career in a dynamic organization. I am eager to explore new opportunities that enhance my skills and knowledge. My goal is to contribute effectively to the organization's success. I look forward to growing both personally and professionally in a supportive environment.

## PROJECTS

---

- |      |  |
|------|--|
| 2024 | <b>ONLINE FILM CASTING</b> <ul style="list-style-type: none"><li>Developed an online film casting platform using PHP and MySQL, consisting of three modules: Admin, Actor, and Castcrew, each with distinct functionalities to streamline the casting process.</li></ul>   |
| 2023 | <b>FLUFFYHOMES</b> <ul style="list-style-type: none"><li>Developed an online home rental management system using Python, Django, and SQLite, consisting of five modules: Admin, Subadmin, Guest, User, and Owner. The system handles property listings, rental agreements, user management, and secure transactions, with each module serving a specific role in the platform.</li></ul> |
| 2022 | <b>ONLINE NOTE SHARING PLATFORM</b> <ul style="list-style-type: none"><li>Developed an online note-sharing platform using PHP and MySQL. Enabled users to create, edit, and share notes with others. Implemented secure user authentication and real-time collaboration features.</li></ul>  |
